# BULGARIANS ACCEPT TERMS OF THE ALLIES

ARMISTICE SIGNED AND PEACE CONFERENCE WILL FOLLOW. ALLIES VICTORIOUS ON WEST FRONT.

(By the Associated Press)

Paris, Sept. 30.—An armistice has been concluded between the Allies and Bulgaria on the Allies' own terms, according to official announcement today. It is presumed peace negotiations will now proceed without delay and that it is possible a treaty may be signed shortly.

Bulgarians in Close Place.

London, Sept. 30.—Charevo east of Veles and only six miles from the Bulgarian border has been captured by Serbians and the Bulgarian retreat been cut off, says the Serbian official statement of Sunday. Over 700 prisoners and twenty guns were captured at Charevo.

Belgians and British Victorious.

Havre, Sept. 29.—Belgian and British armies defeated the Germans today in heavy fighting on Flanders ridge and on Messines, Wytchaste position, according to the official Belgian statement tonight. Messines-Wytchaste ridge has been occupied by Belgians and German efforts to defend approaches to the river Lys defeated.

Peace Talk in Austria.

Amsterdam, Sept. 30.—A proposition that the Presidents and vice Presidents of the parliaments of belligerent and neutral states should be invited to meet for a non-binding discussion of a peace basis, has been introduced in the Austrian lower house of parliament, according to a Vienna message.

Hun Attack Repulsed.

Paris, Sept. 30.—French troops in Champagne resumed the attack at daybreak today, the war office announces. The Germans violently counter-attacked last night south of St. Quentin in Urvillers region in an attempt to recapture Hill 88. All efforts were broken up by the French defense.

British Enter Cambrai.

London, Sept. 30.—British, American and Australian forces pushed forward last night on the front between Bellecourt and Connelieu in the face of severest opposition. Field Marshal Haig announces today. Four thousand prisoners were taken by Allied forces yesterday to the North of St. Quentin and forty guns captured there. British forces have entered the suburbs of Cambrai on the north. Northwest of Le Catelet German counter-attacks pressed the British back to villages Guislain while to the southwest of Le Catelet similar pressure sent the British back to the edge of Bony village.

## GERMANS REEL BEFORE BLOWS

FOCH'S ARMY STRIKES AT MANY POINTS, MAKING GAINS EVERYWHERE.

(By the Associated Press)

As a result of terrific Allied attacks over five sectors aggregating a length of over one hundred miles, the German positions in France appear in imminent peril. From the North sea as far south as the St. Quentin region, a tremendous battle is flaming up, with the Belgians in the extreme north cutting deep into positions which the enemy has held since nineteen fourteen, and with Americans, British and French smashing the Hindenburg line between St. Quentin and Cambrai northeast of Soissons, the French have gained the crest of the ridge along which runs the famous Chemin des Dames, from which the Germans apparently are hastily retreating. In the Champagne sector the French have smashed ahead toward vital enemy positions west of the Argonne forest. East of the forest and west of the Meuse, General Liggett, of the American army, appears crushing the enemy resistance as it rolls irresistibly northward. Everywhere Germans are fighting with desperate valor, their morale seemingly unbroken by allied sledge.

In Macedonia the allied troops stand on the threshold of Bulgaria.

## GERMANS KICK ON AMERICAN SHOTGUNS

Amsterdam, Sept. 30.—Germany, through the Swiss legation, has sent an ultimatum to the Government of the United States stating that if no satisfactory answer is forthcoming on October 1 to the German protest about the use of shotguns by American soldiers, "reprisals will be taken."

A semi-official telegram from Berlin gives the following additional details of the note:

From prisoners captured during a skirmish between patrols on July 27 a repeating shotgun was taken. The prisoners, who belonged to American infantry regiment 307 of the Seventy-Seventh Division, stated their patrol possessed three such guns, each loaded with six cartridges and each cartridge containing nine shots of size .50.

Another shotgun was captured on Sept. 11 from the Fifth American Division. The use of such weapons as causing unnecessary suffering. The German Government protests energetically and expects from the United States Government that steps will be taken to discontinue the employment of shotguns.

It is pointed out to the Government of the United States that a prisoner on whom a shotgun is found forfeits his life.

Washington, Sept. 30.—The German protest against the use of shotguns by American troops has been received at the State Department and an answer soon will be dispatched.

Shotguns are used by American troops, it was said today, only as authorized by the accepted rules of war. They are employed in general police work and in guarding prisoners, being more desirable for such work than the high-power army rifle, because the firing of the latter might result in the death or injury of persons it was not intended to hit.

Germany's threat of reprisals is not causing any anxiety among American officials. The Americans hold 100 German prisoners to every ten Americans in enemy prison camps.

## SHALL ADA BE SHIP OR TANK?

The following telegram announces a friendly contest between towns and cities in the big bond drive:

"We have just obtained permission from the Shipping Board to name ten ships for ten cities in the Tenth Federal Reserve District. We also have permission from the Tank Corps of the War Department to permit you to name ten tanks for cities in your district.—Frank R. Wilson, Director of Publicity."

Cities have been classified according to size, class one being towns under 5,000 population and class two being 5,000 and 10,000. Thus Ada is in class two.

There are hundreds of such towns in the Tenth District. Let's take a chance. Let's get a boat or a tank. Which shall Ada get?

What Allies Have Captured.  
Paris, Sept. 30.—French, British, American and Belgian troops in the last three days have captured 40,000 prisoners and 300 guns, it is estimated here. Since July 18 the allies have captured 200,000 prisoners, 3,000 guns, 20,000 machine guns and enormous quantities of material. This does not take into account the operations in Macedonia and Palestine.

MISS WILNAH ESCHMAN DIES OF PNEUMONIA.

Miss Wilnah Eschman, aged 19, a student of the East Central normal, died Sunday morning at 3 o'clock of pneumonia. Her home was at Ardmore and the body will probably be taken there for interment. Deceased was the daughter of Mrs. Lillian Day, who formerly lived at Purcell. She had been to Florida on a visit and was taken ill on the way home.

Deceased was a young lady of unusual promise and her death comes as she was just entering upon a useful life career. Death indeed loves a shining mark.

## The Princes of Germany are Shaking Dice for the United States!

WE must buy bonds to the last cent of our ability, because our country is fighting for its very life. Make no mistake, citizens of America, the crisis is just that—we are fighting for our very life.

We must fight this war through. We must fight it through to a peace the basis of which will be written by us and our Allies.

Germany must not write a single clause in the Treaty. She must be whipped until she will sign a treaty every word of which will be drawn by the Allies. Germany must not be allowed to dot an i or cross a t.

Why?  
Because Germany has become nothing but a robber empire, a murdered empire, an empire every purpose of which is the enslavement of the rest of the world. Such purposes admit of no compromise. We must conquer or die. If we do not conquer we shall, nevertheless, die—and die slaves.

Germany began with the intention of robbing France of her iron, her coal, her best land and her great factories; of making Belgium with her rich mines, great cities and immense factories a part of Germany; of gaining the Belgian coast, from which she might conquer England, and of combining under her flag the hordes of Mohammedan Turks, and all the Balkan states, so that she might train soldiers in countless millions, build navies to sweep the oceans, and conquer the world.

This war was to be a step toward world conquest.

If we do not fight the war through to complete victory she will still keep on and she will succeed. She will surely succeed!

Russia, with her nearly 200,000,000 people, lies prostrate at Germany's feet. Germany could now give up the Balkan states, give up Belgium, force Austria to yield up the Italian territories, give up conquered France, yes, she could give up these, and even Alsace-Lorraine, and if allowed a free hand in Russia, she would still have won a victory greater than any of which she ever dreamed at the beginning of the war.

Give her control of Russia and she can, and will, within a few years come back with power to take back Alsace-Lorraine, crush poor Belgium once more and destroy exhausted France, sweep every vestige of resistance from Europe, Asia and Africa, and then what?

Then she will thunder at our doors—from Asia she will invade us on the West, from Europe on the East, and from Mexico on the South.

If Germany has control over the terms of peace, we who read this will live to see one of the Kaiser's six sons Emperor of America. The time to whip Germany is NOW!

It is NOW or NEVER!

The Princes of Germany are shaking dice for the United States! It will take money, money, money, that we may send men, men!—By Herbert Quick.

German Anti-Tank Gun.  
With the American Forces in France, Sept. 30.—A German anti-tank gun was captured recently by the Americans. The weapon had only been in use a short time and the stock and rifle barrel had the appearance of just having come from the factory.  
The gun fires but a single shot and is of the ordinary Mauser model. When in action the gun is fired from a bipod mounting, one man doing the shooting. The gun weighs thirty-seven pounds, has a length of five and a half feet and a calibre of 13.4 millimeters.

German prisoners say the anti-tank gun is at its best at about 220 yards. American officers say the German invention does not compare with the American anti-tank gun in any of its features—that the American gun can out shoot it.

## GIVING DISABLED SOLDIERS A START

(By the Associated Press)  
Washington, Sept. 30.—There exists a great deal of misapprehension in the public mind regarding the disabled soldiers. There are frequent allusions to the "crippled" soldier. They all are misnomers. The word "cripples" means those who have lost an arm or leg or a hand. They comprise hardly 4 per cent of the disabled.

As a matter of fact, says the Federal Board for Vocational Education there is scarcely any place for individual or organized endeavor in dealing with the disabled men, except in co-operation with the regular channels provided by the government. Several campaigns have started in various parts of the country, their purpose being, it has been stated, to assist these men who have been disabled and to teach them to do this, that or the other as a preliminary to their return to civil life. To advise the public so that it may understand the situation the Federal Board authorizes this statement:

"At the outset it should be understood that the 'crippled' soldier is in the vast minority. Statistics show that out of every million men sent overseas approximately 10,000 of them will be subjects for re-education."

"Of the 10,000 approximately 500 may be really termed cripples, that is where a man has lost an arm or a leg or most of the fingers of the hand, or lost a foot and so on. Thus it may be seen that the word 'cripple' is very largely a misnomer and the crippled and dismembered men comprise a minority of those who are disabled."

"There has been decided upon by the United States government, and is now in operation by the government, a distinct, comprehensive and entirely ample program of completely caring for these men who are disabled. When a man is first injured he is, of course, taken charge of by the Surgeon-General's Department, placed in a hospital and is given every consideration and attention that medical and surgical sciences and the unlimited means of the government can afford. A great many of these men, almost 80 per cent of them, recover from their injuries and are able to go back in the ranks and perform military duty."

"It is in the hospital work that so much misapprehension and confusion in the public mind arises. While the men are undergoing convalescence, steps are taken to keep them busy in various ways, because a man who has some sort of employment in which he is interested makes a speedier recovery. Also much of this work is designed in a scientific way, so for instance, to exercise certain muscles which have become atrophied by non-use, and so on."

"Some of these occupations have no value whatever aside from affording entertainment and diversion to the patients, while others have a direct curative value. In this sphere in particular the public imagination has run riot. The well-meaning writers have distributed misinformation, and well-meaning people have a confused and scrambled idea of rushing to the hospitals and teaching the soldiers to make beaded bags, do embroidery, weave baskets, rugs and such other activities."

"Many of the undoubtedly do make rugs and weave baskets and the like, but it should be clearly understood that this is not 'educating' them. They are given this work to do by the hospital authorities in order to keep them cheerful, to prevent too much introspection, to give some sort of interest and make the time pass more easily than if they were utterly idle."

"Of those left in the hospitals who are disabled so that they are not fit for further military duty, there is a further program for which the government is responsible and which is thoroughly adequate for all needs."

"It appears that a man will not be able to return to military duty, and if he is so disabled that he cannot return to his former occupation, the United States government will train him for another; and when he has finished that training, will place him in the occupation for which he has been qualified. This training commences as early as possible in the hospital. During the tedium of convalescence he is given some phase of instruction which leads up to the course he will follow after convalescence is ended."

"The Federal Board of Vocational Education charged by the government with the duty of re-educating the men, has in each hospital a 'vocational adviser' a man of broad general information regarding the trades, businesses, professions and callings, their processes and requirements. He serves under a 'district vocational officer' and these work in harmony with the medical and surgical authorities, and of course subordinate to the latter while in the hospitals."

"When it appears that a man has been injured so badly that he will not be returned to duty but discharged from the service, and by reason of his disabilities will not be able to continue his former occupation, the 'vocational adviser' goes over the situation with him regarding his wishes and what is best for him in the way of the free retraining the government will provide. It is entirely optional and voluntary with the injured man. He may take it or leave it, just as he pleases."

"On the discharge of the disabled men from the hospital he becomes a civilian and his relations are then with the Federal Board of Vocational Education and the Federal Bureau of War Risk Insurance."

"After discharge and entering civilian life he is handicapped by his injuries, he may still be unable to do the work he was doing in the army. The Federal Board of Vocational Education is supported by an allowance from the War Risk Insurance Bureau, supplemented by payments from the Federal Board for

## The Hun—His Mark!

There is a plain fact that every American business man must face. This war is not a dollar war. It is a war for justice, for truth, for right, and for human decency. Its financial aspects are minor aspects when measured against terms of human suffering and bloodshed.

But still the question must be asked and must be answered by American men: "Shall the German mark conquer the American dollar?"

## What the Dollar Stands For

The American dollar stands for a business world of square dealing, of equal opportunity to all people, of free commercial intercourse all over the world.

You know what the German mark stands for—a commercial system as an active instrument of foul plotting, espionage, and Prussian propaganda.

## Enlist Your Dollars

Every American dollar must be enlisted in the great army that is now being mobilized against the Potsdam autocracy—the great army of the Fourth Liberty Loan.

Enlist your dollars to win a world in which fair dealing and an equal opportunity for all shall be the guiding principles.

other necessary expenses. His allotments or allowances to his dependents are continued during his period of training precisely as if he were still in the army or navy. He may first be sent to a school, or an agricultural or technological institution which has been approved by the Federal Board. His instruction is paid for and supervised by the Federal Board for Vocational Education. It will be thoroughly practical in all its essentials, and designed to turn out a practical man in the line who can at once 'cash in' on his newly acquired equipment in the way of trade or profession."

The Federal Board for Vocational Education is authorized by law to receive gifts of money made unconditionally. This money is to be spent in connection with government appropriations for rehabilitation of soldiers.

"It will be evident," says the Board's statement, "that many cases will arise where the Federal Board can use the gift fund to great advantage, and people who desire to assist in the cause, and help deserving individual cases, can give their money with the certainty that none of it will be diverted for promotion expenses or for commissions or other outrageous wastes and abuses which have come to light in connection with war charities and the like. It is easy to imagine the many ways in which the Board can utilize this gift fund

so that it can be of the greatest and most practical value."

Cuba Remembers Soldiers.  
London, Sept. 30.—The government of Cuba has sent to the American Red Cross in Europe 240,000 cigarettes and 3,500 packages of smoking tobacco for distribution to American wounded.  
"This is a gift from the Cuban people in recognition of the work of the American army and a token of the sincere friendship between Cuba and the United States," writes the Cuban minister in transmitting the gift.

Gas! Five seconds after the alarm rocket has gone up an entire sector will be prepared to laugh at the Hun trenches. One \$1,000 and five \$50 bonds will supply a whole platoon. They are wearing their masks at the "alert" in the trenches these days, for Fritz is resorting frequently to gas. In the old days it often meant an impending attack, but the Yanks have changed the old order around a bit, and now they attack the Boches through their own poison, thanks to our masks. The gas alarm is given with gongs or rockets, and it is but a matter of seconds to grasp the mask which hangs on the chest and transform a cheerful American doughboy into the appearance of the monster that Fritz is commencing to think him.

To be gassed means the most indescribable agony. It burns and sears the tender flesh of the throat and the poison, entering his lungs, eats away the tissue, leaving the victim dead or a broken invalid. Our masks, however, have fooled the Hun, and they make our boys immune to the worst he can do. Masks are needed in ever increasing quantities. New types are constantly being developed to keep pace with the devilish ingenuity of the Hun chemists whose products swirl toward our lines in clouds and vaporize from bursting shells.

When you buy a \$100 Liberty Bond you equip a squad of eight men with masks. Bonds to the amount of \$1,250 supply a platoon, and the subscriber to \$3,150 in bonds will have the satisfaction of knowing that he has put a whole company beyond the reach of the German poison.

## ARMY PIGEONS GOING TO THE FRONT

Carrier pigeons of the British army behave like disciplined soldiers and are a valuable asset of the British army. Here is shown a motor-transport, which was formerly a bus, loading up with the pigeons to take them to the firing lines. The casualties among messenger birds of the British army are about 2 per cent. They are wounded not only by enemy shell, but by attacking hawks. The birds are placed in gas-proof baskets, but should they be gassed they are cared for at a hospital. There is also a prison for enemy birds which have been captured.

## CONSIDER THE FACTS

### Who Killed Anti-Suffrage in New York?

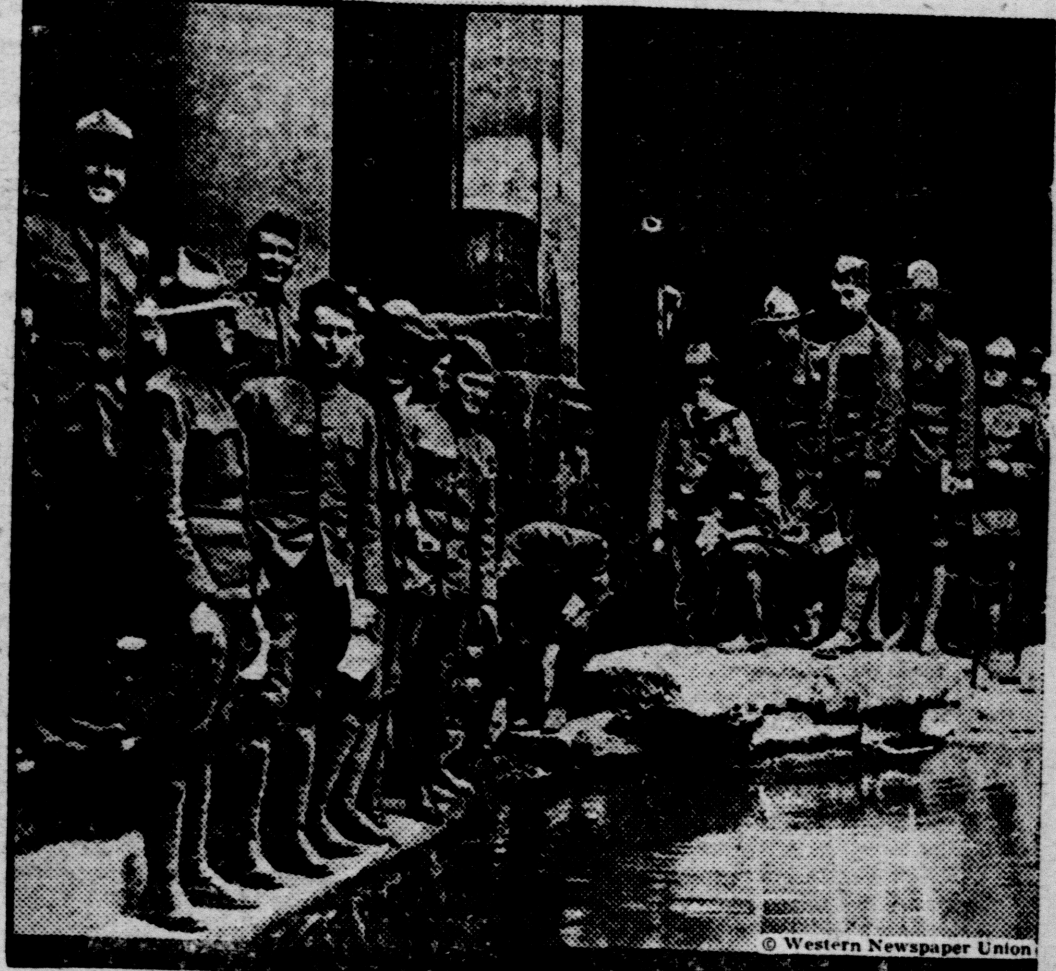

For months after the suffrage victory in New York last November the anti-suffragists were pointing out in accents wild that women of Republican and Democratic faith, being conservative, would stay away from the polls on registration and election days, while Socialist women would be driven to the polls by the thousands by their men. "Enfranchising New York women meant turning the state and the city over to the Socialists!" So said the anti-suffragists.

And the facts as shown by the enrollment figures? Women added an approximate 50 per cent, and 40 per cent, respectively, to the Republican and Democratic strength in New York, and 29 per cent, to the Socialist strength.

You may be interested to know, too, that the total registered Socialist strength in New York is: Men, 67,665; women, 19,950—total, 87,615. Comparison of the relative contributions to the Socialist strength made by men and by women shows, therefore, that if votes are to be withheld from a sex because of its propensity for voting the Socialist ticket, the franchise must be taken from men, as three and a half times as many men as women will vote the Socialist ticket in New York. It is also noteworthy that the entire Socialist vote registered for the 1917 New York elections, 67,665, could have tumbled into East River, and suffrage would still have carried in New York by 35,000 majority. Senator James Wadsworth, husband of the president of the anti-suffrage, is himself authority for the following statement: "The people of the several states are competent to settle this question for themselves. In the last election New York settled it, I assume, to the satisfaction of the people of New York."

In view of the fact that there are over 2,000,000 registered Republicans and Democrats in the State of New York, as against 87,615 registered Socialists, Senator Wadsworth's assumption that the people of New York are satisfied with woman suffrage is a concession that Democrats and Republicans did their full share in killing anti-suffrage in New York.

## YANKEES VISITING IN BATH, ENGLAND

Wherever American troops set foot on English soil today nothing but kind words and all the comforts of home greet them. Patriotic-minded English men and women arrange excursions and celebrations for them; in fact everything possible is done to make them feel as if they were back home. This picture shows some Yankees inspecting the old Roman baths at Bath, England, near which city they are stationed.

## A SOLDIER "TRIG" CLASS

Educational classes at the Army Y. M. C. A. are proving popular with the soldiers. Thousands of young men who are sent to go into the service are continuing their studies and classes while in the army. Many educational institutions are arranging to give credit for the work done in this way, so that students may not lose anything when they return to their country, and can resume their studies on their return, without having to start over again. The picture shows a group of college men continuing their study of trigonometry at one of the Y. M. C. A. schools. It will make them better artists.

In addition to advanced classes, the Y. M. C. A. conducts classes for illiterates and foreigners, teaching them to read, write and speak the English language. The War Department is giving the Army Y. M. C. A. hearty co-operation in this work.

The "trig" class shown in the picture is one of the many educational classes conducted by the Y. M. C. A. at Camp McArthur, Texas.

Eighteenth Division in particular and to all the soldiers in Camp Travis in general, the camp athletic authorities have made Henry A. (Texas) Tate assistant boxing instructor to Johnnie Coulton. Tate is known throughout the south-west not only for his pugilistic abilities which rank him among the nations' best heavyweights but also as an all around athlete. He was a pitcher in the Texas league some eight years ago whence he went to the Philadelphia American League Club. Before his first season in the majors was closed he quit baseball to become a professional wrestler. Army authorities have found that blows, parries and footwork of boxing is very similar to the actions in the use of the bayonet. They find the soldier picks up these movements in boxing much more readily than he does with the bayonet and consequently boxing is being enthusiastically encouraged in all camps. In Camp Travis boxing always has flourished, but now a special effort is to be made to increase the efficiency of the work here.

## WEAK, RUN DOWN WOMAN

Tells How Vinol Made Her Strong. So, Kaukauna, Wis.—"I was weak, all run down, tired all the time, and had Asthma so I could hardly keep around and do my housework. After everything else had failed to help me Vinol built me up and made me well and strong."—Mrs. Jay Parker.  
The reason Vinol was so successful in Mrs. Parker's case, is because it contains the necessary elements to create an appetite, aid digestion, make pure blood and create strength. It is the beef and cod liver peptones in Vinol—that does it—you will not be disappointed if you try it.—Gwin & Mays Company, Druggists, and Druggists Everywhere.

## MOTHERS OF FRANCE TO MOTHERS OF AMERICA

From the Mothers of France to the Mothers of America:  
Our hearts are with yours, American Mothers, to consecrate motherly love; and this sweet name of Mother, which together with that of Father, is the most beautiful and holy name after the name of God.

An intense emotion thrills you, because your sons are no longer there with their radiant youth to manifest their respectful devotion.  
They have left after receiving your blessing, accompanied by your heroic smile.  
They have crossed the ocean to fight gallantly together with our own sons in the gigantic battle which the world is waging for the liberty of humanity.

Their presence brings to France a new token of the justice of our cause. We wish you to feel our maternal hearts beat in unison with yours. Notwithstanding the distance—these hearts which are bruised in such a terrible struggle between our immense tenderness and the sacrifice enacted by the great laws of conscience and honor.  
At this moment an everlasting union is sealed between France and the United States. Together our sons are shedding their blood and we, mothers, accepting their sacrifice, offer the life of our hearts with a like feeling of absolute confidence in victory.

It is not only by words, even the most sincere, that we wish to express our affection and recognition. An association has been constituted in Paris to offer to the American Army and Navy the hospitality of our French homes. We will invite honorable French families to open their doors to your sons and procure to them a few days of relaxation during which they may be surrounded by home atmosphere.

These relations will establish a better understanding in the future, and they will form friendships and common ties which will bring us closer together. We wish to assure you that during the time your sons remain in France we will consider it a sacred duty to do everything in our power to comfort them.  
Your affectionate sisters, Madame La Maréchale Joffre, La Comtesse Albert De Mun, Madame Jules Seigried.

## PATROTIC SERVICES AT PRESBYTERIAN CHURCH

Special patriotic services are being arranged for the First Presbyterian church next Sunday evening at 8 o'clock. Besides a service of patriotic songs (including the national airs of the Allied nations) an address will be delivered by Senator (elect) Luther Harrison, editor of the Star-Democrat of this city. This service will be of more interest since it is arranged at the request of the Liberty Loan Committee of the county. All are invited to unite with the members of this congregation in this important service.—George Wesley Beck, Minister.

## DADDY'S EVENING FAIRY TALE

BY MARY GRAHAM BONNER

### THE BLUE OYSTERS.

"I am blue," said Mother Oyster.  
"So am I," said Daddy Oyster.  
"And we are blue, too," said the little oysters.

"There really is nothing surprising about being blue," Mother Oyster added. "Nothing surprising in the least."

"It would be far more surprising if we were not blue," said Daddy Oyster. "That would be queer, indeed."

"It really would be very odd if we were not blue," said the little oysters. "And we don't want to be odd, oh no, oh no."

"But why are you all blue, oysters?" asked the Sea Fairy. "I don't like to hear of creatures being blue. Can't I help you? Can't I make you lose or forget your blueness?"

"It's quite impossible, though we thank you for your suggestion, good fairy," said Mother Oyster.

"It's kind of you to think of us, but it simply couldn't be," said Daddy Oyster.

"You are a lovely Sea Fairy and we love you, but you couldn't help us change from being blue—oh no, you

couldn't, you simply couldn't," said the little oysters.

"But I hate to think of you all being blue," said the Sea Fairy.

"You mustn't," said Mother Oyster. "You shouldn't hate to think of us being blue."

"No, you really shouldn't," said Daddy Oyster.

"You mustn't feel that way about us any more," said the little oysters.

"But often I have helped blue people, blue creatures and blue fairies—for sometimes even a fairy will be blue," said the Sea Fairy. "Can't I help the blue oysters?"

"It's very kind of you to take an interest," said Mother Oyster, "but there is nothing to be done about it."

"Absolutely nothing," agreed Daddy Oyster.

"You are most unselfish to try to help but you really can't do a thing," said the little oysters.

"I'm sorry," said the Sea Fairy, weeping a salt sea tear. "I hate to see folks blue—as I said before."

"You said that before," Mother Oyster agreed, "and I told you that you shouldn't hate to think of us being blue."

"And I told you just about the same thing," said Daddy Oyster.

"We told you that also," said the little oysters.

"Whatever am I to do about it?" asked the Sea Fairy.

"Nothing!" said all the oysters. "It's impossible for me not to try to do something when creatures are blue," said the Sea Fairy.

"You may try, of course, but it seems a pity," said Mother Oyster, "for you would only be wasting your time."

"You would gain nothing by it," said Daddy Oyster.

"And you might be able to help other creatures in that same time," said the little oysters.

Once again the Sea Fairy shed a bitter tear. "I am so sorry you are blue," she said.

"But we don't mind being blue," said Mother Oyster.

"In fact we like it," said Daddy Oyster.

"We're very proud of it," the little oysters said.

"You're proud of being blue?" asked the Sea Fairy, in a very surprised tone. "Of course we are," said the little oysters.

"We're considered very fine," said Mother Oyster.

"We're greatly appreciated," said Daddy Oyster.

"I don't understand," said the Sea Fairy. "Don't you feel sad, as folk and creatures always do when they're blue?"

"Oh, dear, oh dear," said Mother Oyster. "We're mixed you all up. We're blue—not through sorrow or sadness but because we're blue oysters—that's the kind and variety we are. We are called the famous Blue Point Oysters. And we're proud of it."

"And you'd be proud too," said Daddy Oyster. "If you heard folks saying all the time, 'We'll have blue point oysters, please,' and knew that they meant you. Six of us are often on a plate at the same time and eaten with such relish."

"Well," said the Sea Fairy, "it's a new idea to be proud of being eaten—but I forgot about blue point oysters and thought all the time you were blue as folks are when they're sad and depressed. No, you don't need any help. You're always blue but not sad at all!"

## HONOR FLAGS WILL BE AWARDED LEADERS

In the Fourth Liberty Loan campaign, as in the third, honor flags will be awarded leading communities. The community honor flag of cloth will be the same size as that of the third, but it will bear four vertical blue stripes instead of three. These flags will be awarded under the following rules:

A county, city of school district will merit a flag when its quota has been exceeded, provided 20 per cent of its present population are subscribers to the Fourth Liberty Loan. (Districts which intend to compete in this should notify Chairman L. A. Ellison at once.)

Honor stars will be awarded counties or communities whose quotas are exceeded by 50 per cent.

Window emblems will be given in rural districts to be posted on mail boxes.

A cardboard honor emblem will be supplied to industrial plants when 75 per cent of its employees become subscribers to the Fourth Liberty Loan.

## COUNCIL APPOINTS IMPORTANT COMMITTEES

The appointment of a committee to look after the granting of permits to citizens desiring to construct buildings, the election of P. A. Norris as chairman of the Council and his acceptance, the appointment of a committee to confer with the local ex-committee board and give all assistance in handling the clerical work resulting from the questionnaires, as well as the many things done by the executive committee of the County Council of Defense at a called meeting this morning.

The building committee consists of P. A. Norris, A. M. Gregg and another member yet to be appointed.

The committee to confer with the local board consists of P. A. Norris, N. T. Heard and A. M. Gregg.

The committee to confer with the city officials to see that the questionable women be run out of Ada and consist of R. E. Duncan, A. L. Fentem and M. Levin.

Mr. Norris agreed to accept the chairmanship on the condition that money be provided to furnish him with a secretary or stenographer, as W. D. Little, who has been serving as secretary for more than a year without pay, is unable to do the work longer, on account of his duties as secretary of the State Fuel Administration becoming increasingly heavy.

Mr. Norris was authorized to make any arrangements suitable and get whom ever he desires as secretary and what clerical or stenographic help is necessary.

The following resolution was unanimously adopted:

Whereas, Mr. P. A. Norris, on the 5th day of August, 1918, tendered to the County Council of Defense of Pontotoc County his resignation as chairman of said County Council of Defense, and same was accepted.

Whereas, Our experience has taught us that no other citizen in our county can so efficiently fulfill the duties of said office as he has, and

Whereas, We have been requested by State Council of Defense to try to prevail upon him to again accept the chairmanship of the Council of Defense of Pontotoc county;

Therefore, Be It Resolved, that the Council of Defense of Pontotoc county, in regular meeting assembled, does hereby express its full and unqualified confidence in P. A. Norris as a man, citizen and patriot, believing that he has at all times, regardless of unjust criticism, unselfishly devoted his time and means to the winning of the war;

Second, Be It Resolved further that we believe that the best administration of the affairs of the County Council of Defense of Pontotoc County demands that he again accept the position heretofore held by him, to-wit, County Chairman;

Third, that we herewith tender to him our full and unqualified support and urge that he accept the Chairmanship of said County Council.

The S. A. T. C. of the East Central normal was put into operation this morning and the boys have been busy all day with their physical examinations. The barracks will be ready for their occupancy tonight and they will take their first meal in the basement of the main building Tuesday morning. Mrs. J. H. Wood has taken the contract to feed the corps.

President Gordon received the following telegram from the committee on education: "Unit authorized for your institution in combination with Southeastern State Normal of Durant. Commanding officer will receive necessary instructions."

He interprets this to mean that each school will have an officer on the ground and another in command of the two, but is waiting for further information.

Following is the program of the day:

5:45—First call.  
6:00—Reveille.  
6:30-7:00—Physical drill.  
7:00—Mess.  
7:20-9:00—Close order.  
9:00-12:00—Literary Studies.  
12:00—Mess.  
1:00-4:00—Literary Studies.  
4:00-5:30—Athletics and Close order Drill.  
6:00—Retreat.  
6:30—Mess.  
7:30-10:00—Study and Miscellaneous.

Belgians Capture Dixmude. London, Sept. 30.—Dixmude has been captured by the Belgian troops, it was officially announced tonight.

The Belgians have also taken Zegerem, Stadenberg, Passchendaele, Moorslede and part of Westroosebeke. This means an advance of several miles.

After breaking up a violent enemy counter-attack the Belgians captured Terrestricht and at the close of the day had advanced to within less than two miles of Roulers.

The prisoners taken since yesterday exceed 5,600. More than one hundred guns and numerous machine guns and bomb throwers and much war material have been captured.

For the convenience of the public the News is carrying on sale a supply of Thrift Stamps and War Savings Certificates.

LINEN SHOWER FOR THE HOSPITALS OF FRANCE

We have been asked for a linen shower for the hospitals of France. This is the first shower we have been asked for, and I am sure we will go over the top. Mrs. J. A. Biles has been appointed chairman. She has designated Thursday, Oct. 3rd, from 2 to 5 P. M., at Red Cross headquarters, for the shower. She hopes to avoid a house to house canvass.

Pontotoc County Chapter's quota is: 100 bath towels, 250 hand towels, 500 handkerchiefs, and 100 sheets. The material should be new or practically so, durable, rather than fine. Bath towels 19x38 in., hand towels 18x30 in., sheets 65x92 in., with 2 in. hem at top and 1 in. at bottom.

Handkerchiefs should be men's regular sized handkerchiefs. It has been suggested that two or more ladies can give a sheet, since materials have advanced so much in price.

Mrs. Biles will announce further plans tomorrow.

The various auxiliaries of the county, have assured us that they will go over the top with their quota.

MRS. ORVILLE SNEAD, Sec.

STONEWALL SENDS MORE CLOTHING FOR BELGIANS.

In addition to the first consignment of clothing for the destitute Belgians mentioned Saturday, Stonewall citizens have sent in several hundred pounds more, making Stonewall the largest given in the county in proportion to the size of the place.

Belgians Capture Dixmude. London, Sept. 30.—Dixmude has been captured by the Belgian troops, it was officially announced tonight.

The Belgians have also taken Zegerem, Stadenberg, Passchendaele, Moorslede and part of Westroosebeke. This means an advance of several miles.

After breaking up a violent enemy counter-attack the Belgians captured Terrestricht and at the close of the day had advanced to within less than two miles of Roulers.

The prisoners taken since yesterday exceed 5,600. More than one hundred guns and numerous machine guns and bomb throwers and much war material have been captured.

For the convenience of the public the News is carrying on sale a supply of Thrift Stamps and War Savings Certificates.
